Central Ohio's one-day hackathon for high schoolers

November 18, 2023

Hack-a-thon hosted in partnership with Ohio State University at The Hub
11/18/23 – [Sign-up for Free Today](#)

High School:I/O is a one-day hackathon for high schoolers hosted by [OHI/O](#), Ohio State University's hackathon program. We aim to provide high school students with an opportunity to learn about computer science in a fun, engaging, and inclusive environment. It is a wonderful resume builder. No programming or coding experience is required but could be beneficial. All high school students are welcome to participate.

Meet and work with other passionate, fun and creative students to build real technology projects. There will also be the opportunity to develop new friendships, build connections with professional mentors, and learn soft skills for success in the real

world. Students will be able to earn prizes for their solutions. Lunch and dinner are provided. The event is free of cost for participants! [Register Today!](#)
